MASERGY

MASERGY NAMED TO CRN MSP 500 FOR MANAGED SECURITY SERVICES EXCELLENCE

Company Featured in Managed Security 100 Category

DALLAS – April 17, 2018 – Masergy, a leading provider of hybrid networking, managed security and cloud communications solutions, has been named to the 2018 CRN Managed Service Provider (MSP) 500 in the Managed Security 100 category. The company was listed among top providers for creating a modular ecosystem for Managed Detection and Response cyber security solutions.

"Today's enterprises are under greater assault than ever from both internal and external attacks," said Chris MacFarland, CEO, Masergy. "Operating under the assumption that networks are already infiltrated and reacting with aggressive detection and response is a recommended approach. Masergy's comprehensive security platform combines threat intelligence, machine learning, and 24/7 incident response from a team of experts to perform this important function for our customers."

Masergy's Unified Enterprise Security (UES) Managed Detection and Response platform utilizes a modular architecture to cost-effectively introduce new features and services. The most recent innovative enhancements include:
1. Managed Endpoint Detection and Response (MEDR)
2. Network Visibility Tool
3. Managed Cloud Workload Protection

"Managed service providers have become integral to the success of businesses everywhere, both large and small," said Bob Skelley, CEO of The Channel Company. "Capable MSPs enable companies to take their cloud computing to the next level, streamline spending, effectively allocate limited resources and navigate the vast field of available technologies. The companies on CRN's 2018 MSP 500 list stand out for their innovative services, excellence in adapting to customers' changing needs and demonstrated ability to help businesses get the most out of their IT investments."

Masergy's solutions and support team have been the recipient of numerous CRN awards and rankings such as Channel Chief, Solution Provider 500, Partner Program Guide, Network Connectivity Partner Program, and the Cloud Partner Program Guide. In addition, the company is renowned throughout the channel for its record 74 Net Promoter Score (NPS®), far exceeding the B2B technology industry average of 24.
