

WAN SUMMIT LONDON 2015 TAPS MASERGY FOR SOFTWARE DEFINED NETWORK KEYNOTE

Company VP Outlines New Wide Area Network Vision

6th October 2015 - London, UK – Masergy Communications Inc., global leader in [managed networking and cloud services](#), announced today that the company's Vice President of Global Technology Ray Watson has been selected as a keynote and panel speaker at the [WAN Summit London](#), held on the 7th and 8th of October.

The WAN Summit London takes place at the America Square Conference Centre in Central London, and brings together enterprise WAN decision makers and service providers to spark ideas, gain new perspectives and initiate conversations with suppliers, customers, and peers. Sought after for his in-depth [Software Defined Networking](#) (SDN) and [Network Function Virtualization](#) (NFV) experience, Watson was invited by event organisers to detail how enterprises can benefit from agile, programmable and secure wide area network technologies. Masergy's speaking sessions include:

- Keynote - *Fifth Generation IT: Moving Towards Software Defined WANs*
Thursday 8th October, 9:10 – 9:35 am.
- Panel Discussion - *The Promise and the Reality of SDN and NFV*
Thursday 8th October, 11:10 – 11:50 am.

“For [over a decade](#), Masergy has been developing and implementing SDN capabilities for our customers and we continue to develop innovative technologies to solve real world customer challenges,” Watson said. “I am humbled that the WAN Summit has recognised Masergy as an innovator within this field and am eager to share our ten years of experience with this event’s knowledgeable attendees.”
