

**MASERGY'S UNIFIED ENTERPRISE SECURITY NOMINATED FOR
SECURITY INNOVATION OF THE YEAR**

***2015-16 Cloud Awards Program Shortlists Company's
Fully Integrated, Network Security Solution***

Dallas — January 13, 2016 — [Masergy Communications Inc.](#), today announced its [Unified Enterprise Security](#) (UES) offering has made the shortlist in the 2015-2016 Cloud Awards Program in the Security Innovation of the Year category. The award-winning solution continues to garner praise for its unique analytics that focus on detecting targeted attacks, insider threats, and other fraudulent activities.

As a global leader in [managed networking and cloud services](#), Masergy's UES offering stood out from other security solutions due to its ability to work in public, private and hybrid cloud environments as well as on premise, and to augment any existing security systems that customers have in place.

"The Cloud is all about adding value in a lean, cost-effective way, utilizing the latest technologies and methodologies to benefit the end user," said Cloud Awards organizer Larry Johnson.

"The answer to the cost, complexity and staffing surrounding network security is a unified, managed security architecture," said Tim Naramore, CTO, Masergy. "We are gratified to be recognized by The Cloud Awards."

Masergy's UES has become the market's premier threat management system that provides:

- 24/7 Security Control Center monitoring and reporting by certified security analysts
- Adaptive behavioral analysis to correlate network behaviors over time
- Machine learning to spot advanced persistent threats
