

## **MASERGY WEBINAR EXPLORES WHY SD-WAN IS TAKING ENTERPRISE NETWORKING BY STORM**

### ***Get the Facts on SD-WAN Deployment, Cost and Security Options***

**DALLAS – April 26, 2017** – [Masergy Communications Inc.](#), today announced its live SD-WAN webinar, entitled "When is SD-WAN Right For You." Guest speaker, Forrester Principal Analyst Andre Kindness, will discuss emerging trends in enterprise networking. Kindness' area of focus is Infrastructure and Operations Professionals.

Also presenting is Masergy Director of Product Management Paul Ruelas, who will help separate the fact from fiction on the benefits of SD-WAN.

SD-WAN is a relatively new approach to deploying wide area networks to meet business and application performance requirements. The best SD-WAN solutions can be integrated with organizations' existing network infrastructure and are transport agnostic.

The webinar is an excellent opportunity for CIOs and others to gain an understanding of the key evaluation criteria to consider, including:

- Enterprise network market trends and how SD-WAN can enhance your business and IT performance
- How to design your SD-WAN deployment to take advantage of flexibility and interoperability options
- Real-world example of a global company reaping the benefits of SD-WAN

"As enterprises introduce new applications and migrate to public clouds, they need to enhance the agility of their networks," Ruelas said. "SD-WAN takes the programmable network to a new level of flexibility and control. I look forward to

sharing some unique insights on this topic along with networking expert Andre Kindness.”
