

## **MASERGY'S SD-WAN WINS 2017 VISIONARY SPOTLIGHT AWARD**

### ***SD-WAN Offers Agile and Cost-Effective Connectivity With Global Deployment Options***

**DALLAS – June 20, 2017 –** [Masergy](#) today announced that its managed [SD-WAN](#) service has received a 2017 Visionary Spotlight Award from ChannelVision Magazine in the SD-WAN Best Channel Deployment category. The company's innovative SD-WAN solution supports premise, cloud and virtualized deployments as well as any combination of broadband and high-performance private WAN connections — reducing the risk of “all-or-nothing” connectivity.

“Masergy is an innovator in developing and leveraging technologies that transform enterprise networking,” said Paul Ruelas, Director of Network Products, Masergy. “We are proud that ChannelVision Magazine has recognized our SD-WAN solution as a valuable offering for our channel partners that brings rapid deployment, simplified change management, real-time analytics and service control to customers.”

Masergy's SD-WAN Pro supports businesses that require the highest degree of performance and optimum network agility. Masergy also recently introduced a second offering in its family of fully managed SD-WAN solutions, SD-WAN Go. The integrated solution lets companies use existing or new connections (private, dedicated, broadband or 4G) to securely route data across the public Internet and over Masergy's Software-Defined Platform.

ChannelVision's Visionary Spotlight Awards competition highlights channel and service provider innovation in communications. ChannelVision judges based their selections on innovation, industry impact, feature set differentiation, as well as ease-of-use and interoperability.

### **About Masergy**

Masergy owns and operates the largest independent Software Defined Platform in the world, delivering hybrid networking, managed security and cloud communication solutions to global enterprises.
