

# Masergy AIOps

COMCAST BUSINESS | MASERGY

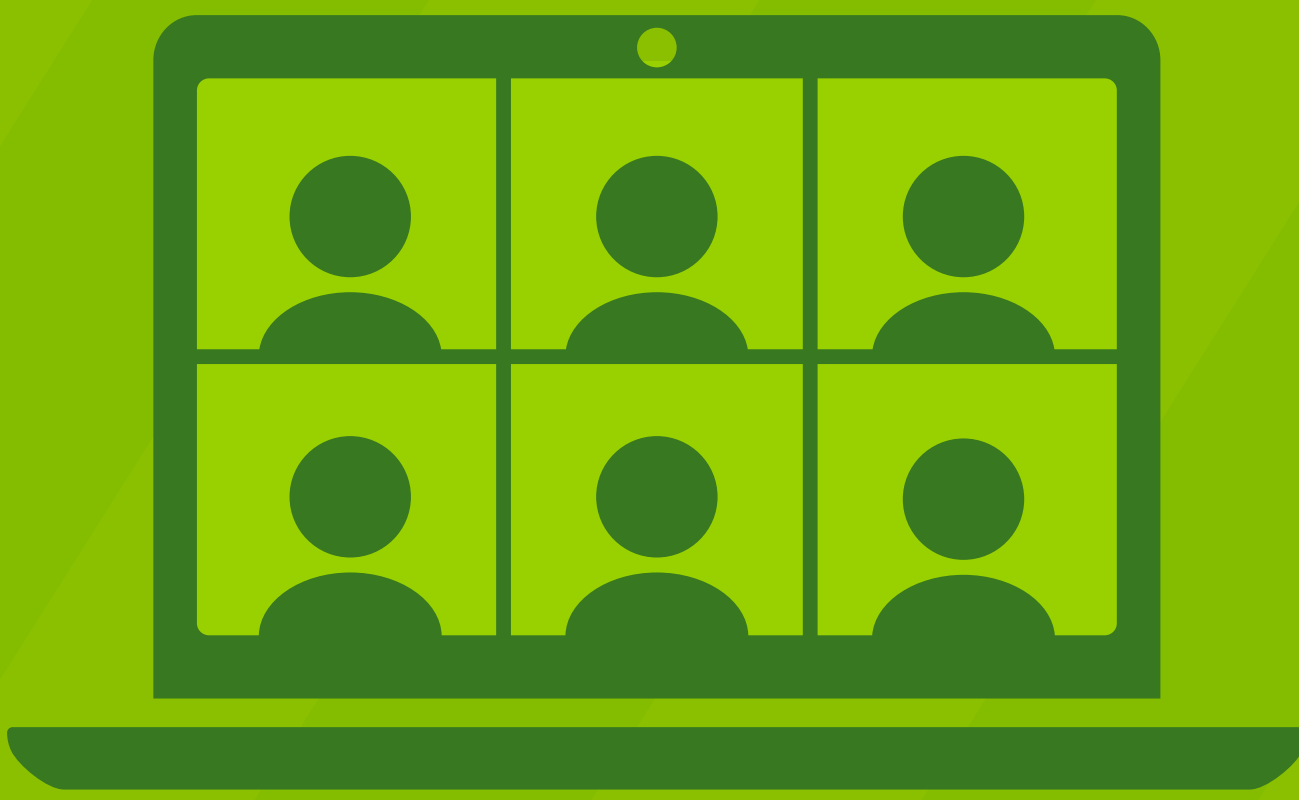

## Optimize your cloud app performance

Like a digital fortune teller, **AIOps** predicts cloud app performance and protects the user experience

## Predictive Protection

AIOps calculates your cloud app performance propensity and keeps things running smoothly with suggested network optimizations and application policies.

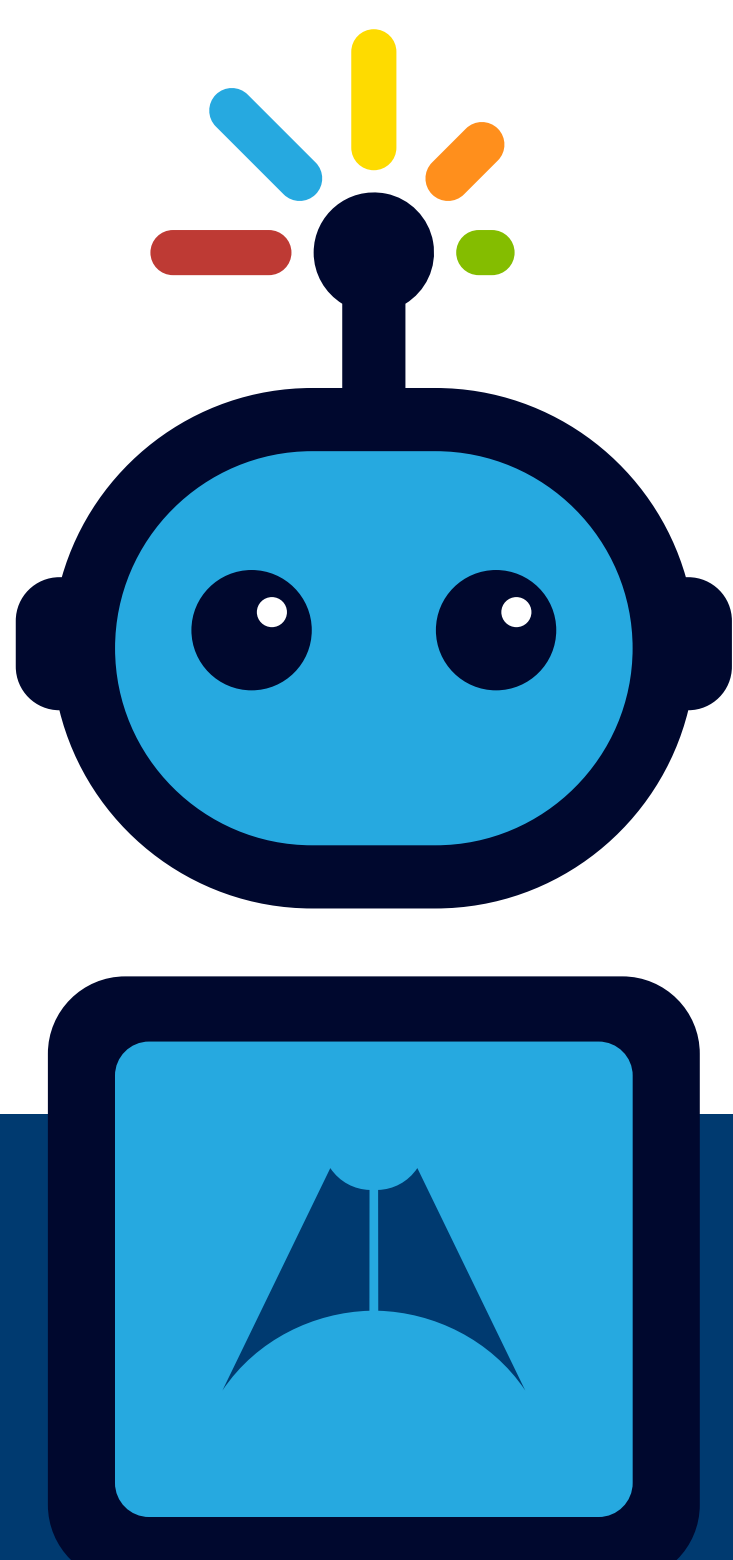

## Intelligent Advice

AIOps evaluates your network performance history and service priorities, recommending the best path for video conferencing and all your critical business apps.

## Outage Prevention

If bandwidth saturation is causing packets to drop and degrading service for critical traffic, AIOps will suggest a bandwidth boost at the right time to prevent an interruption in service.

## Why Masergy AIOps

- The first AIOps for SD-WAN
- AIOps built on 20 years of data
- AIOps in every SASE solution
