Think big rooms, big possibilities

Add the Poly Trio 8800 to large meeting rooms with the Masergy UCaaS conferencing service to ensure productive collaboration. Compatible with your Cisco Webex and Microsoft Teams meetings, the Poly Trio 8800 delivers clear two-way voice communication up to twenty feet (or six meters) using NoiseBlock technology. A Poly Trio 8800 is the perfect addition to your secure Masergy UCaaS meeting to ensure the flow of creative ideas is uninterrupted.

Features

- Connectivity to multiple platforms
- Poly NoiseBlock
- Supports a range of feature-rich add-ons such as EagleEye video conferencing cameras

Benefits

- Combines Masergy UCaaS call quality with Poly's 22 kHz audio and 6 m/20 ft. pickup for true HD voice communication
- Enjoy versatile audio connectivity from your preferred mobile devices (USB, Wi-Fi, and Bluetooth)
- Start a meeting in seconds with one-touch-join
- Make decisions faster with rich video and content sharing options

Turn your conference room into a haven of productivity

Meetings are launched in seconds with a single touch and the Poly Trio 8800 expandable with ports for EagleEye cameras video conferencing along with content sharing add-ons. You can also connect to the Poly Trio 8800 via built-in Wi-Fi, USB, and Bluetooth® for BYOD flexibility.
