

Partner with Masergy for Improved Security Outcomes

Today's threat landscape requires an advanced security approach that goes beyond prevention to include rapid detection and response. Masergy pioneered Managed Detection and Response over 15 years ago and takes a comprehensive approach with an optimized combination of innovative technology, resilient processes, and expert security analysts all working together.

E/evate

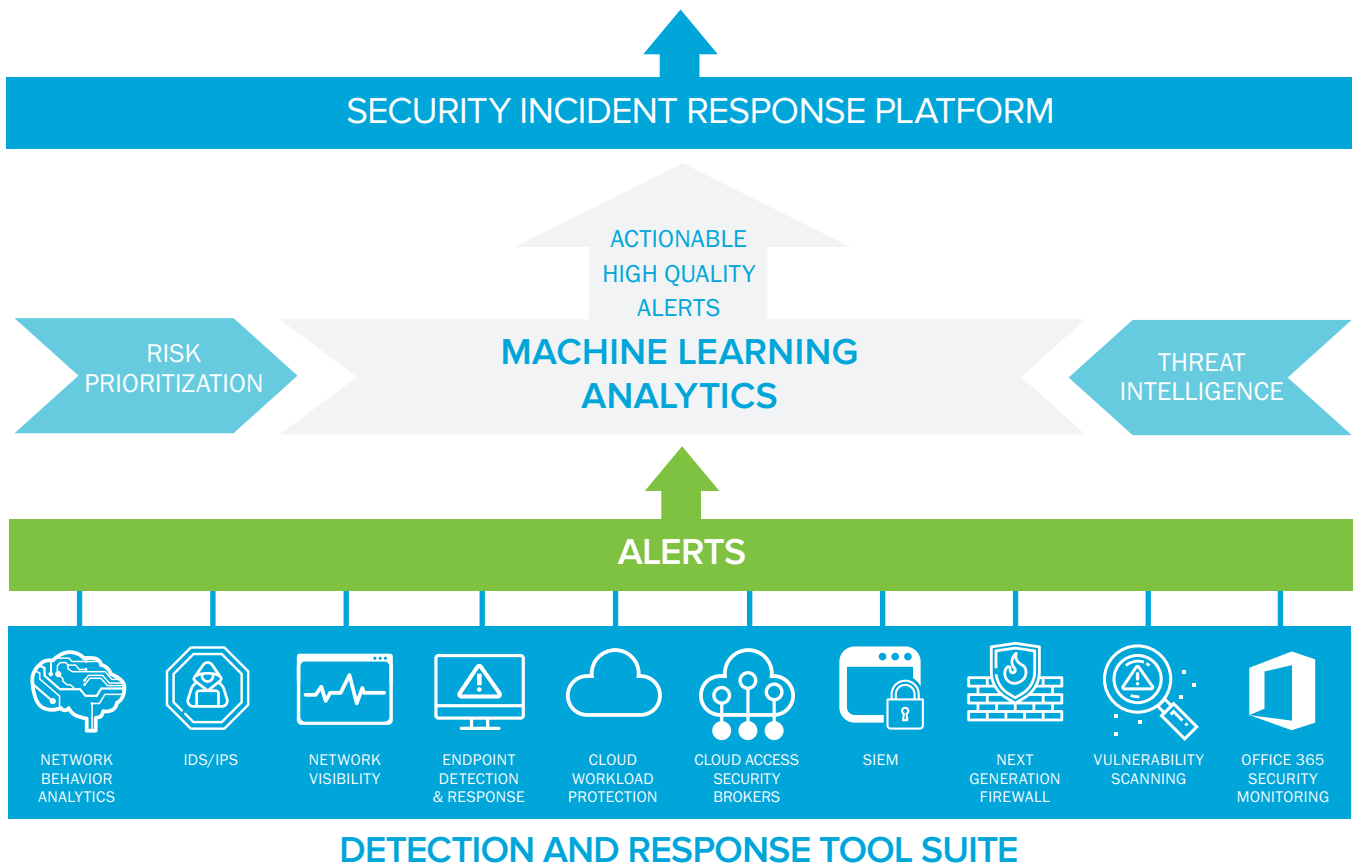

“We ran one of the largest managed security service providers in parallel with Masergy and after about 3 weeks, we were more than happy to cancel our contract with the large vendor. Masergy makes all the difference in the world to us. “

James Desmond, Chief Information Security Officer, Elevate

Better Security Coverage with Holistic Detection and Response Ecosystem

Our holistic detection and response ecosystem includes proprietary and third-party security tools and provides best-of-breed coverage across your entire infrastructure, whether on-prem or cloud.

SECURITY INCIDENT RESOLUTION

Reduced Workload For Your Staff

Offload alert monitoring and response from your overworked security/IT team to Masergy's 24/7/365 global Security Operations Center (SOC). Masergy SOC analysts have the certifications, tenure, and aptitude to meet the highest standards enterprise customers need. Masergy also enjoys one of the lowest churn rates in the industry for security personnel.

With Masergy Security team you get:

- **Comprehensive 24/7 security detection and response** including 24/7 alert and event monitoring, vulnerability scanning, log analysis, prioritized incident response, and compliance monitoring
- **Integrated turnkey threat intelligence** including consolidating multiple threat feeds, analyzing threat landscapes, and pushing key identifiers for automated matching
- **Customized incident and response processes** tailored to your business needs to make you more efficient
- **Seamless ticketing integration** through our open API enables automation, increased visibility, and timely remediation
- **Flexible, customized reporting** to track security metrics and operational efficiencies

Offload Time Consuming Alert Monitoring & Triage to Our Global Security Experts
