Bring people together. Launch big ideas.

In addition, make sure everyone at the table can be heard, near or far with Poly signature audio. NoiseBlock AI means speech flows naturally, without interruptions. Expansion microphones deliver brilliant audio for even large conference rooms. It is built for simplicity–for audio conferences or when paired with a Poly video room solution..

Features

- USB, Bluetooth® or IP connectivity to mobile devices
- Intelligently removes distracting non-speech noise while allowing your voice be heard
- Comprehensive management and analytics for quick deployment and high up time

Benefits

- Enhance collaboration with Poly signature audio for natural conversations
- Increase user adoption as the technology in every room is familiar and consistent
- Start a meeting in seconds with one- touch-join
- Compliment your Poly room video solution with a fast, simple control using Trio C60

Best of all, its super easy to use—launch and join meetings at the touch of a button. Moreover, the Trio C60 plays nicely with everyone, delivering native experiences on your favorite collaboration platforms. So simple, so powerful
